COMPACTOR ROLLS

Deca Industries has a long history of working with compactor rolls. We manufacture components for compactor rolls of all sizes and styles. We also offer complete rebuild services of compactor roll assemblies, gearboxes, force feeders, and hydraulic cylinders. Many modifications can be made to better suit your application, or to offer improved reliability. Some of these modifications include water cooling, improved sealing, and alternative materials for longer roll life and anti-glazing.

WE MANUFACTURE, REBUILD & MODIFY COMPACTOR ROLLS

OUR EXPERIENCE

Deca Industries has been manufacturing, rebuilding, & modifying compactor rolls for over 40 years. Due to our extensive knowledge and experience, we have a close working relationship with 2 of the largest OEM's in North America.

MANUFACTURING

- Engineering, design, and manufacturing services
- Manufacture rolls, shafts, shells, couplings, etc
- Machine parts from a wide variety of materials
- Many custom profiles are available including sine waves, briquettes, chicklets, and almonds which can be cut to suit your specific application
- Nitriding, chroming, and hardsurfacing is available

REBUILDING

- Repair worn or damaged compactor rolls of any size and style
- Refurbish bearing journals and bearing blocks
- Re-coat and machine rolls, as well as replace shells
- Refurbish cylinders
- Replace bearings and seals
- Nitriding, chroming, and hardsurfacing is available

COMPACTOR ROLL GEARBOXES

Deca Industries offers fully comprehensive gearbox rebuilds for all sizes and styles of compactor rolls. Each rebuild consists of an initial assessment, disassembly, cleaning, failure analysis, cost estimate, replacement

of any worn or damaged components, housing rebuilds if required, reassembly, and final test run before returning it to the customer. Improvements and modifications are available to address bearing life, sealing issues, lubrication, condition monitoring, and premature wear.

GUARANTEED QUALITY & SERVICE

Deca Industries has been manufacturing, rebuilding, and modifying compactor roll components for over 40 years, and we are committed to supplying unmatched quality and service to our customers. We understand the costs associated with downtime, and we will always do our best to get your equipment back up and running in the shortest possible time frame.

EMERGENCY SERVICE AVAILABLE
